

## Tableau Sales Dashboard

This project showcases a Tableau dashboard created using the Global Superstore dataset to analyze sales

### Features

- Bar charts for analyzing performance by category and sub-category
- Line chart visualizing monthly sales and profit trends from 2014 to 2017
- Geographic maps showing sales distribution by state and by city
- Interactive filters for order date, category, and location

### Dashboard Story Highlights

The Tableau story includes the following views:

1. Overview dashboard combining all visuals
2. Category-wise bar chart
3. Monthly sales/profit line chart
4. State-level sales map
5. City-level sales map
6. Summary slide

### File

- Task2.Dashboard.pdf - Exported version of the Tableau dashboard and story
